Oncology Supply

Unlock the power of data with InfoDive®

InfoDive is an essential partner to help your practice unlock valuable insights.

Our sophisticated business analytics tool seamlessly integrates into your workflow to provide unparalleled support, helping you to:

- Improve negotiations with payers
- Identify opportunities for growth
- Optimize inventory management
- Reduce your audit risk
- Monitor your practice's performance using over 200 specialty-specific benchmarks
- Conduct payer audits and enhance revenue cycle processes
- And so much more!

Request a demo to learn more.

Call 877.570.8721, ext. 2, or email info@intrinsiq.com.

Change

As the community oncology landscape continues to evolve, we want you to know that we are here for you every step of the way. Whether it's navigating DSCSA regulations or managing the impacts of Change Healthcare, we've been right by your side, ensuring the smooth operation of your practices so you can focus on providing exceptional care to your patients.

Oncology is an ever-growing field, and we are committed to growing and evolving alongside it. The introduction of our new name, Cencora, and the new leadership and support structures for 2025 equip us to serve you better and adapt to the unique needs of your practices.

Our main goal remains steadfast – supporting you, no matter if you are part of a large network of practices, a small clinic, or a multi-specialty facility. We have expanded our services to meet the distinctive demands of your practices, proactively sourcing products to ensure a wide range of products are available to you to mitigate any impact of shortages.

Through our collaboration with Government Affairs, we advocate for oncology practices, making sure your voice is heard, and your concerns are addressed. During our recent visit to Capitol Hill, leaders at Cencora passionately represented the interests of independent community physician practices. Through meaningful dialogues with legislators, we shed light on crucial issues such as Drug Shortages, the Change Healthcare system outage, and concerns about the STARK Law. These discussions underscore our unwavering dedication to tackling the critical challenges you face daily.

We are deeply committed to your success and well-being. Count on us to stand by you, offering innovative solutions and unwavering support to help you thrive in the ever-evolving healthcare landscape.

Thank you for choosing us as your partner in care. Together, we will navigate these changes and emerge even stronger.

Warm regards,

Annette Bentley

Vice President and General Manager

Tips on how you can prepare for DSCSA implementation

Every entity involved in the pharmaceutical supply chain is expected to be fully compliant with the Drug Supply Chain Security Act (DSCSA) in 2025. Explore these resources to learn what steps you should be taking in preparation.

HCPCS Codes are subject to change and accuracy is not guaranteed. Please consult the Healthcare Common Procedure Coding System (HCPCS) for the most accurate and up-to-date information. This is not representative of our full product catalog, to see all of the products we carry please go to oncologysupply.com and sign in to ABC Order. Availability of products is subject to change. Oncology Supply is not responsible for accuracy of categorization.

Our purpose is to source safe and effective medicinal products that drive quality and efficiency in pharmaceutical care to help improve patients' lives

BluePoint provides better supply continuity through:

- Securing three plus months of safety stock in Cencora warehouse
- The ability to expedite orders during high demand
- The ability to secure up to six months of supply with manufacturers
- Two private labels: BluePoint and OncoPoint – with different contracts for each label

BluePoint drives quality of drug product through:

- Rigorous lab testing for each batch of product based on FDA guidelines
- Product reviews for CoA and CoC
- Routine audits of manufacturing sites and distribution channels

Nurses and physician assistants

Earn competitive fair market value honoraria

Bring your expertise as a nurse or physician assistant to the Global Provider Insights Network® (GPIN), a community of over 1,500 healthcare professionals engaged in honoraria-based market research.

- Engage in both blinded and unblinded market research
- Benchmark your decision-making and practice behaviors against your peers
- Share insights into complex clinical decisions and patient challenges

Your clinical experience is pivotal in guiding manufacturers, biotech, and diagnostic companies to better meet the needs of healthcare providers and patients, leading to improved treatment options. Your shared insights contribute to the progression of patient care.

Complete the short questionnaire by scanning the QR code or visit <https://intrinsiq.questionpro.com/NurseScreener202403>.

Generate practice growth with Specialty Practice Rx Services

Empower your oncology practice's medically integrated dispensing program (MID) with our new portfolio of pharmacy services - Specialty Practice Rx Services. Let us guide you on the path to success by optimizing pharmacy operations, achieving accreditation with confidence, and providing insightful analytics and audit solutions.

Why partner with us?

- Optimize operational efficiencies for growth
- Achieve accreditation with ease
- Access enhanced analytics and reporting capabilities

Join forces with us today to transform your medically integrated dispensing program. Whether refining an existing MID pharmacy or launching a new one, our collaborative approach ensures tailored support for your unique needs. Together, let's enhance patient care.

Get started today

Together, we can advance your practice with our MIPS Consulting Services

Discover the advantages of partnering with our MIPS Consulting Services

Our consultants provide you with strategic guidance throughout the year, helping to navigate MIPS reporting complexities. We advise on:

- Effective strategies to boost your providers' MIPS scores
- Potential upward payment adjustments
- Intentional ways to alleviate the MIPS reporting burden

Our partnership doesn't end at enrollment. Benefit from regular monitoring and ongoing guidance to keep your practice on track.

Together, we can simplify your MIPS experience and position your practice for success.

Partner with us today for MIPS success.

Access up-to-date NCCN® order templates within IntelliDoseTxM

With a subscription to the NCCN library within IntelliDoseTxM, you can access the fully integrated, dynamically updated NCCN cancer care recommendations. There is no need to maintain a separate subscription.

- Preview each treatment plan and corresponding order sets
- Activate only the plans your providers need
- Customize plans to suit unique treatment protocols
- Quickly view NCCN reference material
- Receive automated updates within IntelliDoseTxM of new NCCN treatment protocols
- Maintain NCCN-referenced template notes

Request a demo to see NCCN order templates within IntelliDoseTxM.
